- ◆ FQ0APONICS17 Certificate in Aquaponics concepts of integrated plant and fish farming

FCBST17 Certificate in STCW Basic Safety Training

NATIONAL FISHERIES COLLEGE

“A practical course for persons requiring qualification to work on any commercial vessel ”

Training Specialists for the Fishing Industry

Course Contents

The STCW Basic Safety Training provides participants with the necessary skills and knowledge to ensure overall safety on board a vessel in emergency situations.

The course consists of theoretical as well as practical instruction covering the following subject competencies:

- Elementary First Aid
- Fire Prevention and Fire Fighting
- Personal Safety and Social Responsibilities
- Personal Survival Techniques.

Course Details:

- The STCW Basic Safety Training is run as part of a whole course or standalone for seafarers with existing qualifications. This course runs for period of two weeks.

Entry Requirements:

- This course is taken by existing seafarers who wish to validate their certificate. Certificate issued for this course is valid for five years.
- This is an entry-level mandatory certificate, no prerequisites are required and the trainee isn't required to have prior knowledge of fishing operations.
- There are no entry requirements for this course as trainees taking these course are existing seafarers who are validating their certificates or new trainees who take this course as part of the whole training.

Enrolment Procedures:

- Applicants should complete and return the application on the back of this brochure.

- Applicants selected for the course will be required to produce a medical certificate and birth certificate.

Course Venues:

- Courses are delivered in Kavieng at the National Fisheries College.

Course Fee:

- Contact the NFC for information regarding fees.

Course Rules

- The National Fisheries College has Rules by which all Trainees should abide by once they are accepted for training at the NFC.

These Rules act as a deterrent so each Trainee can concentrate on learning and acquiring skills rather than concentrate on unnecessary activities that do not assist with a Trainees learning on Campus.

Course Assessment:

- There are theoretical and practical aspects of this course that trainees need to pass before they can be issued a certificate.
- These course meets the requirements of National Maritime Safety Authority

For more information contact:
